

VIRTUAL VOYAGE
COLLEGE OF INNOVATION

your voyage log book

“The real voyage of discovery
consists not in seeking new
landscapes, but in having new eyes.”

ROAR PASSION

A voyage is meant to refresh the soul

It's a soulful voyage that lets you explore a world that's about freedom and opportunities; making you wonder about wonders. All it takes is a step that leads to an extraordinary experience with a promise of becoming a NEW-YOU!

A voyage anchors possibilities

Unfolding new perspectives through a voyage can open a sea of possibilities; enabling you to make your own decisions. This voyage is all about self-discovery and self-empowerment!

A voyage steers you ahead of competition

Challenges that await you on this voyage are stiff, stubborn and hungry to rip you apart; demanding the best from you in order to make you stronger than your competitors. Become bold and better!

A voyage directs you towards success

With every second that passes by, this
voyage sets out to be your guide in itself;
impelling you towards the desired treasure.
Welcome Aboard!

The Torchbearer's Message
Page 108

The empires of the future are the empires of the mind

Message from the Founder and Director, Virtual Voyage
Mr. Abhay Jain

Winston Churchill had made just the perfect sense when he said above lines. It's high time to imply these words.

To rule the future, we might have to pull up our socks and think of different ways to get on the top. The direct road might seem easier but facing the challenge and making it up to the top is a different feat. In the history of time, it has never been easy to accept change and support the revolution. But, to be a leader, change is what you want. It's time to culminate different vocational streams like design, media and management and make a distinctive choice from the wide range of new age courses. Since the crowd is mostly unaware about the career opportunities in these streams, we believe in focusing on industry relevant training with specialization to provide students a strong platform.

Our mission is to train young minds into industry ready professionals. We strive to provide training at par with international standards. We aim to polish the hidden talents and develop employability skills by exposing them to a variety of learning experiences. Virtual Voyage with SAGE University is all set for the neo age professionals who want to make it big in the future by their uniqueness and thirst for the best. We train students to empower their minds and in turn, take onto the world. It's time to defy all the myths and set up new pillars of posterity. It's time to be all you have always wanted to be.

Let's proceed and study together, to make your dreams come true.
All the Best!

A token of respect to the people whose advice makes all the difference

What makes a river take a decision to submerge
in sea? Did the land advise her to do so for the
betterment of terrestrial and aquatic beings?
A good advice is basically a fortune found!

Thoughts from the Board of Advisors

Mr. Vivek Tripathi, holds an MBA in finance & strategy from IIT Lucknow with more than 14 years of diversified business experience in corporate banking, corporate finance, construction funding, mortgages and textile industry. He has been associated with organisations like ICICI Bank, Reliance Capital, Sintex industries & Grasim and is currently associated with AU Financier (India) Ltd.

Mr. Vivek Tripathi

"I have known Mr. Abhay Jain from the time we studied together. We were batch mates studying different fields of engineering in the same college. I still remember when we first came to Indore and called home from the STD booth, he would always be enquiring about the crops if they were sown and watered. I coaxed him a lot to let go of the village life and get back to the present engineering course which he was pursuing but I believe that this orientation was his strength. He has the ability to be involved in different areas and at the same time be detail oriented. He stuck to his roots but his curiosity and interest have aided his success. I wish him and Virtual Voyage College all the best for the future endeavors!"

Ms. Karen Brown

Ms. Brown has more than 25 years of experience in business development, branding and positioning, institutional audits and quality control. Prior to joining Al Najah Education UAE, Ms. Brown has worked with various academic institutions like Emerald Heights International School, Choithram Higher Secondary School, IL&FS Education and Technology Services, Everonn Education Limited and GEMS Education gaining notable expertise in systems and policies, operational standards and assessments.. She is also a certified Program Leader for the 'Cambridge International Certificate Program in Teaching and Learning'.

"Practically every member of my family has been a teacher and that has motivated and driven me to break out and always do something different. Hence, I have travelled extensively and have been acquainted with different cultures. My own academic sojourn has empowered me to think laterally. For students like me who have a penchant for a unique global experience, Virtual Voyage College has provided a platform to fulfill our fervent dreams. Here, one is able to express oneself through modern design and unique, creative style. The students have access to innovative academic programs and experiential learning opportunities. The country needs more such institutes providing fresh and ground breaking direction to lakhs of youngsters. I wish Virtual Voyage College and their team good luck in all their endeavors."

Mr. Shrikant Mandhanya is a thorough finance professional holding an MBA degree in Finance from Narsee Monjee Institute of Management Studies, Mumbai, FRM (GARP) and is also a fellow member of the Institute of Chartered Accountants of India (FCA). He has 8+ years experience of Finance, Audit, Operations and Leadership in the healthcare industry. He is currently working with NMC Healthcare Plc, a London Stock Exchange (LSE) listed company, as Senior Manager Corporate Finance with involvement in finalization of group accounts, budgeting and also looking after new acquisitions done by the group. Prior to this, he has worked with Fortis Healthcare Ltd, one of the leading healthcare companies in India, for 7 years and has taken up various roles in finance function including audit, accounting, due diligence, ERP implementation, supply chain and IT. His last stint at Fortis was as Zonal Finance Controller for NCR II region, heading finance function of 5 hospitals in NCR and Jaipur.

Mr. Shrikant Mandhanya

"I have been acquainted with Mr. Abhay Jain for a couple of years. He operates with the principle of acting first and thinking later, which is contrary to what we from the financial sector are trained to believe in. We believe in stringent risk analysis, long term assessment and planning only after which we contemplate the projected results and then prudently step in. 10 years back, I actually balked at him for his methods. Today perceiving from where I sit, I believe he was right to take swift action, a requisite for any business today."

Ms. Shravani Chopra

Ms. Shravani Chopra is currently working at Al Khawarizmi International College – Continuing Education Center (CEC), Abu Dhabi. Her areas of expertise are: Education Management, Operations Management, Sales Marketing & Branding, Franchise Network Management. She has exhibited excellence in Strategic Planning, Business Development, P&L Management, Resource Management, Budgeting & Relationship Management. She is well versed with SOP Development & Life Cycle Management with focus on accomplishing organizational goals & objectives. She has been associated with Companies like Aptech, Pentasoft Technologies Ltd, Maya Academy of Advanced Cinematics, Ideacount Education and more.

"Mr. Abhay Jain was a very dynamic business partner of the brand Framebox where I was heading operations. My experience with Mr. Jain, while he was investing in partnerships and propelling my franchise's growth into new heights was that he cared deeply about the success and was undeterred while taking on new challenges. I clearly remember we displayed his Indore center's performance across all Franchisee centers as a benchmark. He is equipped with great skills in mastering any arena. He is adept at growing business opportunities surrounding complex businesses and addressing organizational issues.

I have no doubt that the undertaking of Virtual Voyage College spearheaded by Mr. Jain's direction & guidance is going to break many boundaries reaching many youth of our nation. I wish that they scale new heights."

Mr. Ankit Jain is a dynamic Senior Software Developer at Deluxe Financial Services, Detroit, MI, USA. Holding a Master's degree in Computer Science from The University of Georgia, USA and is certified in scrum training for agile development. He recently launched an IOS and Android app. He has 6+ years extensive experience in delivering success in all phases of software development & project life cycle. A results-driven project leader, ensuring excellence in requirements gathering and 4-phase analysis processes to create top-tier products and services. He is proficient in Mobile app development, Java & C#, with strong attention to detail. He is very adept at leveraging new methodologies & tools to streamline as well as improve core processes, boost system performances, and achieve highest level of customer satisfaction. He is a very dependable role model for all younger developers and exhibits excellent team work.

Mr. Ankit Jain

"Mr. Abhay Jain is a friend that I have made through social media. Having studied within the Indian education system, I have watched so many students that pass out with the same traditional courses year after year with perpetual maddening job rush and the youth not being effectively utilized for our economy. I have followed eminent educationists in India and in the process found Mr. Abhay Jain's profile. Since then I have been following his actions, steps & moves in this field. Rapid growth is clearly visible!"

Mr. Prashant Charpe

Mr. Prashant Charpe is an astute IT professional with over 13 years plus of extensive experience in Service Delivery /Project Management with Financial Domain knowledge of Project Management Office. His "big-picture" vision is a hallmark of a consensus-driven leadership style that encourages ownership and empowers staff to brainstorm solutions. He is respected for troubleshooting acuity and capacity to think "outside the square" for more effective outcomes. His intuitive business sense and an instant grasp of new technologies underpin dedication to steer streamlined operations within a cost-effective and productive IT function. He has expertise in managing customers in very challenging conditions across Singapore, Malaysia, Thailand, Philippines, Vietnam, and Australia. He is currently the Senior Service Delivery for South East Asia(including Australia & New Zealand) with a multinational company based out of Singapore.

"I have known Mr. Abhay Jain personally, both of us initiated our careers together and we were roommates too. An early bird, he used go out for work in the early hours of the morning. We even ate together at the mess and on numerous occasions, Mr. Jain would miss his evening meals as the mess would close at sharp 9:00 and did not entertain service after that. He missed his meals as he was helping students to solve their queries. I then noticed he was a man of commitment with a dedicated focus on his goals. Regardless of the obstacles, he remained upbeat and full of ideas. He has consistently pushed the bar to a higher level. He has a passion and zeal for the things he is involved in, both at work and outside of work.

Today, I see how far he has come and is primarily focused on training young minds and empowering them. His new ideas and execution techniques have always been instrumental in contributing towards creating a niche and a strong foundation in contemporary education in our country. I wish him and Virtual Voyage College luck in this mammoth task!"

Ms. Meghna Salil holds a Masters degree in business management with a specialisation in marketing from University of Pune. Being in corporate sales & marketing for over eleven years, she has in her experience repertoire a diverse mix of service industries like hospitality, logistics, education and media. She is an excellent communicator and a people's person.

Starting her career with the Taj Group of Hotels, and Exel India Ltd. she moved onto her true forte – Media. She worked with Bennett, Coleman & Co. Ltd (BCCL) aka The Times of India Group and also as a Regional Head – M.P and Chhattisgarh at Living Media India Ltd aka The India Today group. She is currently in Seattle, Washington working as a Financial Consultant.

Ms. Meghana Salil

"I have had the opportunity of working closely with Mr. Abhay Jain, and Virtual Voyage College in the initial stage of my career. That was also the beginning for Virtual Voyage College with merely 3 members of staff. I have learnt a lot from him and fine-tuned my skills that has helped me advance my career. I cherish the experience to this day. He is very focused and decisive, consistently enabling his employees to make decisions on their own and get him (Mr. Jain himself) involved when needed. He is an extremely intelligent and hard working person. His winsome personality helps him easily build relationships with everyone.

I have no doubt that Virtual Voyage College is going to touch many young minds and help them leave a mark in their lives. I wish them all the success!"

Mr. Ashish Lunkad

Mr. Ashish Lunkad is a Senior International Executive Leader, CEO/ CFO/ PRESIDENT/ DIRECTOR with over 16 years of experience in International Finance & Banking, Global Economics, Import/Export, Sales Management, Negotiation, Business Development, Information Technology and holds a Master's Degree in Management & Finance.

Mr. Ashish maintains a proven track record of accomplishments in setting up mutually beneficial international and domestic trade and funding agreements between corporations with agreement value ranging from \$10 million to \$10 billion. Further, he displays the ability to develop strategic long term partnerships and communicate effectively with all levels of decision makers.

"Mr. Abhay Jain has been associated with me as a junior since 2002. I remember offering him an opportunity to join me.

I knew this well that he had big plans to fuel the passion of youngsters like him, youngsters who had no appropriate career guidance and took up wrong decisions. These decisions at times proved fatal, which is quite rampant now. Having no financial support from his family, he worked hard to introduce courses as per the need of the hour. Progressively, he started capturing the hearts of many youth of first the city, the state and gradually the nation.

I can assure you that in the next 5 years Virtual Voyage College will be the biggest organization for specifically such modern day courses. I wish him all the best in his journey as he steers the youth of today!"

Aabha Dixit

Fashion Design Faculty

At Times and Trends Academy Pune

A knack for fashion, she is a person who likes to be surrounded by uniquely different styles and ideas! She has worked with Chandrakant Sonawane (Costume designer for Bajirao Mastani and Padmavati) who was her chief mentor.

"I was waiting for the right opportunity to explore my talent and skip conventional career choices. Virtual Voyage was a boon for my career. It has given me exactly what industry needs, not what had been taught since years."

Fashion is an art and you are the canvas

Fashion Design

A holistic input on generic design with more focused approach towards apparel inculcates the ability to develop and channelize creativity. The Fashion Design specialization offered by the Department of Fashion & Apparel hones design sensitization, which balances global fashion aesthetics with an Indian soul. It addresses the needs of the export market as well as both couture and prêt à porter clothing in India, expanding and categorizing apparel design into niche segments. In tandem with the shifts in the industry where Design has become even more significant, students are trained to anticipate and address relevant concerns and issues. A logical, sequential, hands-on experience enables students to conceptualize designs, make patterns, drape and construct garments of impeccable quality.

Design is the power to transform an image and make a social statement.

There is no walk of life where fashion doesn't play a part. Designers are people with a desire to create. They combine

practical knowledge with artistic ability to turn ideas into the clothes we wear.

Fashion is a highly complex, multi billion dollar industry today.

The Fashion business includes all the processes involved with producing raw materials, apparel, and accessories, and retail stores that sell fashion merchandise to the public.

Fashion is now considered an instrument of one's personality. It is an instrument for self-expression and a celebration of style. The export boom and the growing western influence has led to a fashion boom in India. The trend of fashion consciousness is bound to grow and stay.

Designers, merchandisers, buyers, marketers, technologists, logistics managers, strategists, etc. are all involved with getting the best product to the market place in the fastest time and at the most competitive price.

SALIENT FEATURES:

- Students will be introduced to textile technology namely; weaving, printing, embroidery and dyeing. Emphasis will also be laid on fundamentals of graphic software and its usage for image creation. Field visits and internship with textile mills, printing units and other processing houses will be an important part of the curriculum.
- Students get to learn with greater departmental specialization. The focus is on greater exposure to the complexities and nuances of different segments of the apparel industry. An industry internship during the year is an invaluable experience for students to interface between design and technicalities of production.
- Students get to learn with faculties who are experienced, qualified and devoted with in depth knowledge about industry as well as having a flair for teaching.
- An opportunity to witness the glamorous world of Fashion by attending eminent fashion shows.
- Opportunity to experience the knack of what all moves behind the great fashion shows by getting a chance to work.
- Chance to actively get involved in organizing and running fashion shows by participating in them and designing for various themes.
- Students will get an impeccable opportunity to interact with well known fashion designers who in turn will help in enhancing their talent.
- Chance to learn & work in resourceful environments that will enable to become professional designers.

- Opportunity to practice with best of equipments and tools used at all stages of learning.
- Opportunity to attend and gain knowledge through guest lectures by the bigwigs from the fashion industry & well known academicians.
- Get to study changing fashion trends with updated curriculum.

CAREER PROSPECTS:

- Fashion Stylist
- Fashion Coordinator
- Fashion Consultant
- Fashion Assistant
- Colorist
- Apparels Merchandiser
- Fashion Journalist
- Fashion Photographer
- Model
- Freelancer
- Costume Designer
- Visual Merchandiser

Murtaza Amjherawala

**Placed at Intext Interior, Indore
as Associate**

A Member of IIID (IIID is the country's premier body of Interior Designers), his working with diverse design styles has helped him create a niche in the interior designing industry.

"Institute with the best faculty! The main aim of virtual voyage is to provide the best education with friendly environment and prepare their students to perform well in each and every phase."

An empty room is a story waiting to happen

Interior designing means architecture with art. It's not just about walls, doors and windows alone. It is about giving these walls and windows a personalized and artsy touch. A designer is an artist and an interior designer fills up an empty space with his/her perspective and develops it in his/her own creative process to make it visually appealing, exclusive and yet practical for daily usage. All this has to be executed keeping in mind the psychology of the customer. Interior designing has carved its way into the minds of the customers and is now recognized world-wide as a separate career venture.

The areas that will be focused under this program are residential design, commercial design, sustainable and ecological design and exhibition design. All of these put together, gives students a comprehensive understanding of commercial objectives, marketing knowledge, visual merchandising, spatial and display design, fixture and lighting, communication design and branding strategies.

Interior Design

After being associated with us and working with renowned interior designers and architects in the business, students will be able work independently. Working with designers who are beyond their time will ensure that the students are abreast of the latest yet sustainable trends.

SALIENT FEATURES:

- Students are trained to become young professionals who are capable of efficiently integrating with this growing industry and delivering high standards of design creativity.
- The program includes time spent in an internship and a final project.
- Students will be able to plan a space and render it to become visually appealing.
- After pursuing the course, they will have in-depth understanding of the materials and products used to create and furnish the space. They come out more evolved in terms of creativity, thinking-out-of-the-box and most importantly, they become confident and ready for a hands on experience as a connoisseur of the industry.
- During the course the students will possess excellent time and project management skills, since there are situations when they need to work on more than one project at a time, under demanding deadlines.
- Faculties hold higher degrees in interior design or related fields and have been selected because of their individual and collective experience as interior designers and commitment to teaching.
- Students learn how to approach design problems through a methodology that includes data gathering, product specification, identification of details, contractual documents and design business procedures.

CAREER PROSPECTS

- Interior Designer
- Project Manager
- Design Consultant
- Corporate Designer
- Light & Acoustics Consultant
- Site Supervisor
- Specialist Designer
- Retail Designer
- Freelance Interior Designer
- Visual Merchandising Consultant
- Interior Assistant

COURSES	Duration	Eligibility

Ph.D. In Design (In Any specific remarkable subject related to Interior Design)	3 Years	Master's Degree

Sakshi Sharma

Placed at IBC24, Indore as Reporter

An excellent debater who finds her passion in reporting. She has interviewed several political personalities such as Jyotiraditya Scindia, Shivraj Singh Chouhan, Digvijay Singh as well as film and T.V. celebrities. She also has conducted sting operations over safety issues affecting women.

"The cascade of activities and courses helps students to undergo an overall development. The modernized classrooms and a practical way of learning leads students to in-depth knowledge. Faculties are very friendly and learned which helps you to get solutions in minutes. It is the one stop destination to develop your career. So open your wings and follow your heart. All the best!"

Achieve, create impact and change the world!

MASS COMMUNICATION

One associates journalism, event and entertainment with Mass Communication but the course offers much more to it. It is a training discipline for professional knowledge and skills in communication that is applied to corporate management in institutions of government, commerce, non-profit agencies and academia. Students learn writing and narration of stories in a variety of formats including: breaking news, news feature, documentary, and news magazine. While the emphasis of this course is not on actual shooting and editing, students are encouraged to develop stories suitable for broadcast outlets.

JOURNALISM

Journalists play a major role in providing information to the public. A well-educated journalist gathers information and invests time on his/her report to convey newsworthy occurrence. As a journalist you will learn how to report the facts in an unbiased manner, write clear and concise copy and publish in a variety of media. Journalism offers a variety of career options like Broadcast Journalism, Photo Journalism, Investigative Journalism, Sports Journalism etc.

FEATURES

Mass communication includes not just the newspapers but television, radio, and all sorts of communication forms such as photography, writing, advertising and many more aspects. With the technological advances in mass communication, the entire global community has come together and turned it into one large community. This is where a career in mass communication finds greater importance globally. Students are placed in the production house, media house and the print media with different profiles such as producer, director, scriptwriter, sound engineer, reporter, editor, sub-editor, art director, special correspondent and more.

CAREER PROSPECTS

- Newspaper Reporter
- Magazine Writer
- Advertising Executive
- Public Relations Officer
- Space Selling Executive
- Content Developer
- Cinema Projectionist

Vedang Lele

**Placed at Steerers, Indore
as Social Media Manager**

Having grit to experiment with content to upscale its creativity, he is one curious being! Strategizing campaigns for clients for their social media platforms, he helps to trend and connect people with brands digitally.

"Great College! Thank you for providing good opportunities & an awesome culture to work and learn."

Let's trend! Shall we?

Social media is a two-way communication stream, whereas with traditional media, messaging is published through a one-way communication medium to the masses like radio, television and newspaper. Social media consists of online tools and websites that encourage people to interact with companies, brands and people (including celebrities and journalists) and form communities by creating, publishing and sharing content. The face of journalism has changed with the emergence of social media. We can't possibly imagine our lives without Internet and social media plays a dominant role when you think to connect with people and brands. The social media has made our lives stress-free and efficient.

Today Internet offers different platforms to connect with people through social networking, online gaming, blogging, podcasts or a personal website. Websites such as Facebook, Twitter, and LinkedIn now serve as news sources for many of their followers. Here at VV, the experienced staff will guide our students on basics and advance level of web designing, digital media, course on JAVA, computer game programme and so on.

FEATURES

A student will be qualified in the area of SEO, Web Content Developer, Digital Computer Programmer, JAVA Developer, Web Graphic Designer, Web Designer and so on. Now, more than ever, a beginner blogger or tweeter can turn their hobby into a career with a degree in social media. Whether you're interested in web design, multimedia design, professional blogging or social media management, a social media degree will help you secure the most sought after jobs in social media.

COURSES	Duration	Eligibility

SC2DM {Specialized Certificate Course in Digital Media Management (Level 3)}	1 Year	
Ph.D. in Management (In Any specific remarkable subject related to Digital Media Management)	3 Years	Master's Degree

Kapil Pawar

Director & Event Manager

Kstar's Event & Promotion, Indore

A young entrepreneur who has organized and managed 13 events of his event management company - Kstar's Event & Promotion at just the age of 21 proves that age is no bar to success.

"This is an amazing institute for people who want to do something different. Thanks to Virtual Voyage to help me find my real potential."

Plans are nothing. Planning is everything!

Event management consists of thinking about the concept, planning, budgeting and hosting events such as exhibitions, stage shows, fashion or rock shows, music concerts, celebrity appearances, fashion or charity shows, conferences, weddings, product or brand launches, and sports shows to name a few. Clients hire event management company so that their event will be managed efficiently and effectively for it to become a success.

An event manager has to first design the basic framework, after which he prepares the marketing plans, hunts for sponsors, works on the logistics, decides the venue/location, contact vendors, prints invitation cards, selects menu, hires performers, arranges for transport, and on the D-Day co-ordinates, plans and finalizes every aspect of the event. For

an event manager, innovation is the key to success so it is very important for him/her to have a creative mind. Along with creativity, managing an event also demands a lot of physical exertion and stamina to move around. So if managing an event gives you the thrills, then Virtual Voyage have something interesting for you!

Events Management

SALIENT FEATURES :

- The methodology of training is unique and different from traditional methods and thought processes. It consists of practical exposure along with theoretical knowledge.
- The courses and contents are designed after thorough interaction with industry stalwarts, leading to rigorous training which ensures bringing out the best out of beginners.
- Regular mentoring by renowned event managers of national repute.
- Faculty members include professionals drawn from various industries. They lecture on subjects of their expertise, resulting in experience sharing, interaction and networking.

- Seminars, workshops and presentations on creative enhancement and 'Thinking Out of the Box' by experts from different segments of industry.
- Novel exposure to watch events of all eminence followed by an opportunity to work on any of the following live projects managing and finally to exhibit the talent and creativity by organizing events of various stature.
- Weekly seminars from experienced personnel from the industry ensure that the learning involves a lot of ground work which makes the students industry - ready.

Started his career as an Assistant Director with Ikram Akhtar, an Indian film writer known for movies like Ready, Thank You, No Problem, Chal Mere Bhai. With a drive of making great movies, he leaves his audience for wanting more!

"Virtual Voyage helped me bring out the best of me. I've truly enjoyed the enriching learning environment. I miss my Virtual Voyage family."

A chance to live many lifetimes

Indian film industry is one of the largest in the world in terms of films- over 1000 movies are released yearly in India.

Film making is possibly the broadest and most varied creative opportunity in mass media, a blend of creativity and technicality. Films are an important media, not only for entertainment and information, but also for communication. Films, the most international medium have developed into a universal art form that transcends cultural differences. It is inclusive of feature films, documentaries, promotional films, TV commercials, music videos, etc.

The technique of film making is a teamwork which needs close and coherent organization of various skilled individuals. It involves acting, directing, producing, script writing, cinematography, sound recording, visual mixing, editing and so on.

A film maker has to concentrate on all these concepts equally. He/she should be having that creative as well as technical knack for story ideas and unique implementation towards carrying out an appealing effect. A film maker's

job demands a lot of work from ideas to story, script, cast, screenplay, music, direction, budget, sets, location and so much more!

A film maker is like the captain of a ship that has to look at all these aspects.

Indian film segment is driven by growth in multiplexes, movie sell through, sale of content rights and movie merchandising. With the spread of the Indian diaspora and the growth of "Brand India", it has also made roads in the international markets.

The field of film making is highly competitive and has a lot of scope for employment, especially in India which releases a large number of films every year. If one possesses artistic and technical skills and at the same time an ability to express ideas, this is the most appropriate field to work in.

SALIENT FEATURES:

- It is designed to fully equip students with the skills to author moving images for digital film and television production works in high demand now and in the future.
- The course recognises that the rapid development in digital film and television necessitates students to understand new skills and to acquire new knowledge to take advantage of new opportunities in digital film technology.
- The course is strongly committed to nurturing individual talents in digital film and television.
- The students gain hands-on practical experience and new skills in creative and technical areas.
- The uniquely creative approach seamlessly guides students through as they write, direct and produce even as they are studying film history and researching film theories.

Pranjal Vashishtha

CEO - Steerers, Indore

Won multiple awards in various National and International competitions for Designing and Animation category. He is a creativity specialist who beautifully graces even under pressure.

"Virtual Voyage gives you much more than a degree, something that stays with you for a lifetime."

With animation, fantasy becomes your friend

Animation is the process of continuous motion and shape change. It is the art of bringing life to a character. It is the perfect blend of creativity and technology which involves drawing, layout and production of graphically rich and attractive multimedia clips. It is basically drawing virtually and bringing the character to the fore.

Visual effects is a process by which an already shot scene/sequence is altered and made larger than life for more and better effects which might not be possible organically. It is done with the help of computer graphics and is executed in the post-production of the project. The effects must be pre-planned and shot in the way which allows the artist to use the effect in the best possible way to create a mind altering effect on the audience.

Digital film making is the use of digital media to produce and execute a motion picture as opposed to the traditional method of film-making. It is a relatively new field which is barely 20 years old but still has made a strong grip as a career venture.

FEATURES

When students get associated with us, they will learn a host of new and latest software like Maya animation software and gain expertise in the 3D section. Along with it, they will also have exposure to the professional world through weekly seminars, workshops and industry visits which keep the students in check with the latest industry trends. After the training, the students will be given the task of preparing showreel of animation and VFX. Also, they will get a chance to direct at least one live action movie under the guidance of our faculty and industry experts. Besides this, the students will be provided opportunities to intern with production houses, studios, ad agencies etc.

CAREER PROSPECTS

- Art Director
- Storyboard Artist
- 3D Animator
- Modeler
- Lighting Artist
- Layout Artist
- Game Developer
- Cartoon Animator
- Ink & Point Artist
- Line Producer
- Sound Engineer
- Editor
- Composer
- VFX/Dynamics Artist
- Technical Instructor

SALIENT FEATURES:

- a. We believe in emphasizing more on practical aspects rather than theoretical aspects as it is a prerequisite in the multimedia field.
- b. Students get opportunities to work on various updated software according to modern industrial requirement.
- c. They get to have live lectures from global world class faculty and professionals through video conferencing.
- d. We have faculties teaching students specializations in various segments like pre-production, production, movie making, animation, visual effects, sound/video editing, and much more.
- e. Students are encouraged to participate in competitions involving Short Film Making, Graphic Designing, Promo making, Animated Short Films etc. to know and experience what goes behind their making.

Ankita Mishra

Actor, Model, Anchor & Singer

Miss Malwa 2017 title holder, she has hosted a lot of shows, participated in various competitions and won several of them. She has worked in short films and albums as an actor. Runner-Up of Voice of M.P. 2014, she is a passionate singer who writes her own compositions as well as cover songs on Youtube.

"Virtual voyage has given me confidence to step ahead and work for my dreams."

It's a platform to express yourself

ACTING

Acting is an activity in which a story is told by means of its enactment by an actor or actress who adopts a character—in theatre, television, film, radio, or any other medium that makes use of the mimetic mode. This intensive professional-level course provides specialised training in acting. The classes at Virtual Voyage are conducted by competent in-house faculty members who passionately teach this craft through varied exercises. Above all, each student receives individual guidance and counseling from the talented faculty here.

FEATURES

- With proper attention paid on cinema, acting and theatre, students are taught to analyze a character and bring it closer to life
- Tips on gestures and behavior during auditions, voice exercises
- Teaching through theory classes, games, exercises and extensively filmed practicals

THEATRE ART

Theatre is the branch of performing arts; taking forms such as plays, musicals, opera, ballet, illusion, mime, classical Indian dance, kabuki, mummery's plays, improvisational theatre, stand-up comedy, pantomime, and non-conventional or arthouse theatre. In this program, the focus will be to develop a creative vision and make students visualize a script into a proper play with special attention on lights, art direction, creation of sets, costumes etc. Indore has always been a cultural hub so with the eminent theatre workers of the city, students will experience the best of theatre.

FEATURES

- On-stage practicals
- Lighting practicals guided by the best in the city
- Set designing classes & practical assignments to create a professional set
- Make-up & costumes study with assignments on character basis

DANCING/CHOREOGRAPHY

Dance is a type of art that generally involves movement of the body. It is performed in many cultures as a form of emotional expression, social interaction or exercise in a spiritual or performance setting and is sometimes used to express ideas or tell a story. At Virtual Voyage, we aim at providing a general overview of all kinds of dance forms ranging from classical to modern to contemporary. The institute will provide facilities and study material to all of the students for an insight into the evolution of dance as a medium of expression to a medium of art.

FEATURES

- A special studio dedicated to dance and choreography students
- Introduction to world heritage and different kinds of dance forms
- Body gestures development and posture holding exercises
- Flexibility and stretching exercises

MODELING

Modeling is an undoubtedly a glamorous field which offers tremendous opportunities to travel and meet various classes of people. Even with all these plus points it involves lot of hard work, dedication and perseverance to be successful in this field. It is a profession where educational qualifications become insignificant and physical attributes and personal qualities assume importance. Moreover once established, it is a highly paid job with a lucrative career.

FEATURES

- Aspiring fashion models are taught about varied styles for clothing and how to carry it well
- Techniques are taught for properly applying makeup
- Guidance on rules of etiquette
- Lessons for ramp walk and confidence building sessions

ANCHORING

The course is suitable for those students who want to improve the knowledge of TV broadcasting, Newscasters, Newsreaders, Presenters or Anchors. Producing with the particulars of facing the live cameras & world of recent affairs, it develops student's behaviour to greatest suits of this thrilling occupation. This specialization course will eliminate the student's fear of facing the camera, fine-tune the student's speech, and mould the student's talent for television journalism. Students will also be exposed to micro specialized fields in news journalism such as promo-writing and promo-producing for news.

FEATURES

- Voice and speech exercises
- Gestures and body language enhancement
- Special grooming for auditions and screen tests
- Character analysis and presentation
- Special method acting classes as a bonus

VIDEO JOCKEY

The main job of the Video Jockey is to introduce music videos and host music related shows on Television. VJ's area of work involves apart from introducing videos; hosting game to travel shows to youth forums, chatting with the public, doing interviews with artists and music celebrities etc. VJs must constantly keep up-to-date on the latest trends in music, all the latest videos and information about music stars and other celebrities. They must be able to answer any queries about music and must fulfill their roles as experts.

FEATURES

- VJ training with latest trends and tech
- Personality building sessions with emphasis on body gestures
- Voice modulation training

RADIO JOCKEY

RJ career requires enthusiasm, rationality, creativity of mind, good sense of humour, excellent communication skills & ownership of a live appealing voice. Radio Jockeying has become a popular career option for many youngsters. It is an exciting, promising and challenging career for those who have a passion for music. It is the only profession in which one may be recognized by one's voice.

FEATURES

- Intensive knowledge on music
- Fluent Speaking Sessions and Training
- Voice Modulation Sessions

Guneet Bhatia

Placed at Witty Feed as Storyteller

With an art of carving stories and playing with words, she finds joy in writing. She finds her achievements in conveying thousands of unsaid and unheard stories.

"Virtual Voyage is predominantly for all those who think out of the box. Best place with immense exposure."

Brands are created in the mind

Brand is a name, term, symbol, design or a combination of all these intended to identify a product or service of a seller or a group of sellers. The popularity of a company greatly depends upon the brand. It is an identity of the company and/or their products in the market. A successful brand can only be created through an efficient brand management system.

Brand management is the process of identifying and managing marketing techniques for a particular service or product to increase its market value and popularity among the customers. It also involves managing the tangible and intangible elements of a brand such as cost, customer satisfaction, in-store presentation and competition. Brand management plays a broad and significant role in almost every business organization or a company. Most companies appoint a brand manager to manage and sustain their brands according to the market trends.

A Brand Manager is a person who identifies a brand that will cater to consumers and work out marketing strategies to establish brands in the market. They plan, develop and

direct the marketing efforts for a particular brand or product. Brand managers may deal with various kinds of brands in the market such as premium brand, economy brand, corporate brand, family brand, individual brand, brand extension, private branding etc.

Brand Management

COURSE AREAS

The main aim of the Brand Management course is to give students a fundamental understanding of how to build, measure and manage brands. The course imparts knowledge about principles of brand management, market research, analysis of market trend, consumer demand, brand research, brand launch, USP (unique selling propositions), brand promotion, distribution, packaging and marketing of a brand.

The product design programme at Virtual Voyage inculcates user-centric approach and processes. Responsibility and concern towards the social, physical and ecological environments is emphasized in the process of developing innovative ideas.

The product design programme assimilates inputs in diverse domains such as human factors, cognitive ergonomics, form studies, studio skills, advanced CAD, research methods, design management, materials & manufacturing processes & social sciences. Emphasis is on process centric approach which shapes a student's education through participation and teamwork. Design projects form the core of a product designer's education with gradual increase in level of complexity and cover broad areas that product designers are likely to encounter in their professional careers.

Students are actively encouraged to participate in collaborative projects with industrial houses, social sector, government & MNC design projects that can be broadly classified into domains of:

- Design for Industry
- Design for Quality of Life
- Design for Healthcare
- Design for Social Impact
- Design for Sustainability
- Design led Future

If you are keen to design and improve the usability of everyday items, you should consider a career in industrial/product design.

COURSES	Duration	Eligibility
B.Des. In Product Design	4 Years	10+2 (Any Subject/ Discipline)
M.Des. In Product Design	2 Years	Graduation (Any Subject/ Discipline)
Certificate Course in CAD/ CAM	3/6/12 Months	None (Any one can do it)

As a product designer, you'll create a range of items from everyday products, such as mobile phones, household appliances to larger items, such as industrial tools, equipment and machinery.

You could work on new products or improve existing ones, and use your understanding of technology, materials and manufacturing methods to improve the design and usability of an item. The work involves:

- Designing
- Modelling
- Producing Prototypes
- Testing

Product designing also gives you an opportunity to work along with engineers and model-makers where in, you could conduct research and devise a design proposal for projects. You may need to work on the budget of the designed item to make sure it is cost effective.

There is a significant demand for experienced designers, especially those with experience in a niche area and with a technological background.

Freelancing is also possible by choosing this course with significant experience and established contacts .

Product Design

Rahul Jain

**Placed at ADIENT (For Johnson Controls)
as Engineering Manager APAC**

Adept at bringing creativity to the table, he has successfully launched various automobile seating programs across globe including India, Thailand, Germany, Spain.

"Virtual Voyage has helped me become more vocal about my opinions and discovered the designer in me."

Ideas that shape speed, thrill & luxury

Automobile Design

Automobile designers design the appearance, the components and often to the ergonomics of automobiles and other road vehicles which may include vans, trucks, motorcycles, and buses. The functional developments of a vehicle including the mechanical, electrical, software, electronic and safety aspects that are usually completed by a team of automotive engineers whereas the aesthetics and appearance of the vehicle are left in the talented and artistic hands of an automotive designer. Most commonly, automotive designers are industrial designers with an art background and creative sensibility.

SKETCHING: The designers start making sketches while imagining specific targets; the kind of customer who will drive the vehicle and how it will be used. Sometimes they draw the car surrounded by people and even entire cityscapes to help them refine the image.

The tools used also differ. Designers use the tools that they are most familiar with—sometimes drawing by hand, sometimes using computer graphics software.

DIGITAL MODELING: To create a more concrete, complete image of what the vehicle will be like when it is actually made, digital modelers use computers to turn these two-dimensional sketches into three-dimensional digital data. These modelers specialize in digitizing the vehicle based on designers' sketches of the car from all angles—front, side and back. At this point, all the fine curves and surface contours of the vehicle shape are expressed. Finally, the designer and modeler work closely together to further examine the vehicle proportions and complete the design.

CLAY MODELING: Based on the sketches and three-dimensional data, a quarter-size model is made with industrial clay. This special modeling clay becomes soft

when warmed and hardens when cooled. Clay modelers use tools called scrapers to shave the clay and form the shape.

Once the design is brought close to the final stage, full-scale, 1/1 clay models are made. One of these shows the vehicle exterior. The other incorporates the interior details and is finished so that people can sit inside. By actually seeing and touching the vehicle, design team members can inspect the design at a detailed level. The exterior model is covered with a film to simulate an actual painted surface, clarifying the vehicle's shape and allowing a check of how it will look in real-world lighting conditions.

INTERIOR COLOR DESIGN: Interior designers are involved in designing all the parts of the vehicle's interior. They design the seat shapes, instrument panel, door trim and other aspects of the interior for a total display of the ambience in the vehicle cabin space. Interior designers also decide the materials to be used in the interior, thus requiring them to be knowledgeable about all kinds of materials.

Color designers consider the best combinations of colors and materials for both the vehicle exterior and interior in further developing the design. They carefully examine even the finest details. Since automobiles operate outdoors, for example, they investigate how the vehicle will look in the sunlight, checking where the sun hits and how the areas of shadow will look.

COURSES	Duration	Eligibility
B.Des. In Automobile Design	4 Years	10+2 (Any Subject/Discipline)
M.Des. In Automobile Design	2 Years	Graduation (Any Subject/ Discipline)

CAREER PROSPECTS

- Sketch Designer
- Product Designer
- Graphic Designer
- CAD Designer
- Animator
- Project Manager

Sahil Talreja

**Placed at iLEAD Group, Indore
as UI Designer**

A master of range of skills, he is proficient in addressing design problems with his novel ideas.

"An outstanding institution which provides overall development. It's best for those who love creativity by heart."

For those who are fueled by creativity

UX Design or User Experience Design is the process of enhancing user satisfaction by improving the usability, accessibility, and pleasure provided in the interaction between the user and the product. User experience design focuses on the overall experience between a user and a product. It is not just concerned with the interactive elements but also the way that certain elements look, feel or contrive to deliver certain outputs.

Interaction design is specifically a discipline which examines the interaction (via an interface) between a system and its user. It may also incorporate design focused on how information should be presented within such a system to enable the user to best understand it.

MULTIMEDIA

Multimedia can be broken down to multi and media which can connote two or more than two types of media together. It is the kind of content which is the culmination of different content forms. For example, using elements like music, lighting, computer-generated graphics, animation, videos and visual effects used for purposes of entertainment, presentation, advertising or public relations.

Multimedia artist is a person who creates special effects and animated films, television programs and computer games. Multimedia artists generally make use of computers to design a series of images, so as to create animated motion pictures. As a multimedia artist, one should have thorough knowledge of using story board.

PRINT AND DIGITAL DESIGN

Print designers use their technical and typographic skills to arrange and style words and numbers as they appear on a page. Determining letter and line spacing, integrating illustrations and photographs and laying out pages are also part of a print designer's responsibilities.

Digital designers use creativity and computer skills to design visuals associated with electronic technology. They create everything from websites and computer-game graphics to special effects for movies, and may work in a variety of industries including entertainment, education, and advertising.

WEB DESIGN AND DEVELOPMENT

Web development refers to building and creating websites that encompasses many different skills and disciplines in the production and maintenance of websites. It includes aspects such as web design, web publishing, web programming, and database management. Additionally, a web developer may help maintain and update a database used by a dynamic website.

Web Design involves implementing specific solutions that follow the business rules and objectives outlined by the client. Strong design and communication skills coupled with research techniques and a grasp of target audiences, markets and trends will ensure client satisfaction and credibility for the Web Designer. The current trend is to also integrate the website with Social Media and take advantage of the leverage these modern platforms bring.

A Web Designer has many employment opportunities.

This can range from being a self-employed freelancer to being employed by media organizations and advertising agencies. Web Designer positions may be broad in scope or specialize in an area such as Graphic Design, Client Management, Back End/Server Side Development and User End Designer.

FRONT END DEVELOPMENT

A front-end web developer is responsible for implementing visual elements that users see and interact with in a web application. They are usually supported by back-end web developers, who are responsible for server-side application logic and integration of the work front-end developers do.

MOBILE APPLICATION DESIGN AND DEVELOPMENT

Mobile app development or the Mobile UI considers constraints, contexts, screen, input and mobility as outlines for design. The user is often the focus of interaction with their device and the interface entails components of both hardware and software.

The Mobile Application Design & Development program prepares students for careers in the expanding and evolving fields of mobile web and application development. The rapid proliferation of mobile devices combined with the demand for continuous information access by consumers is creating exciting employment opportunities. Graduates may find employment in all levels of government, including health care and education as well as business, marketing and communications.

FEATURES

When a student gets associated with Virtual Voyage, he/she will be made to go through the process of practically studying all the aspects. With the guidance of experienced faculty, students are polished to work as professionals. Students will participate and practice in various in-house competitions and also outside the college for detailed exposure. Huge exposure through industry visits and guest lectures on a continuous basis ensure the development of the student in all aspects. Along with this, the students get to work with at least 1 live project on graphic designing, to create and upload 2 online websites. After this process, the student comes out as a professional, ready to face the world with the confidence and flair that he/she gains from Virtual Voyage.

User Interactive (UI) and User Experience Design (UX)

Ravi Parmar

Senior Hair Stylist at Kenzo The Club Salon

A great hair stylist who knows how to integrate trends into client's personal style. He is adaptable and skillful for achieving stellar results.

"Virtual voyage has a comforting work environment. It provides good platform and opportunities that can be crucial to your career and gives right guidance to the young minds."

Where indulgence begins

Beauty is a characteristic of an animal, idea, object, person or place that provides a perceptual experience of pleasure or satisfaction. Beauty is studied as a part of aesthetics, culture, social psychology, philosophy and sociology. An "ideal beauty" is an entity which is admired or possesses features widely attributed to beauty in a particular culture for perfection.

It is a program that prepares cosmetologists, hairstylists, and other personal grooming specialists to manage beauty parlors, shops, and full-service or specialized salons. It includes instruction in cosmetic services marketing and retailing, advertising and promotion, salon management, cosmetic and salon supply industries, hiring, supervision and labor relations, applicable business and professional laws and regulations, professional standards and customer service.

If you are interested in being a hair stylist, cosmetologist, manicurist, pedicurist or skin care specialist, the cosmetic and personal care services then this field is for you! These professionals are dedicated to making people look their best and are always in high demand.

Beauty, Personal Care and Salon Management

CAREER PROSPECTS

- Earning a degree or certificate in cosmetology as well as a state license qualifies you to work in a variety of careers in cosmetology and personal care services.
- With enough experience or education, licensed cosmetologists, hair-stylists and skin care specialists can become beauty salon managers.
- Hair-stylist
- Esthetician
- Spa Manager
- Beauty Department Manager
- Cosmetics Manager
- Freelancer
- Instructor/Trainer
- Beautician
- Bridal Specialist
- Skin Specialist

COURSES	Duration	Eligibility

C2BPCSM (Certificate Course in Beauty, Personal Care & Salon Management)	1 Year	
Ph.D. in Management (In Any specific remarkable subject related to Beauty, Personal Care & Salon Management)	3 Years	Master's Degree

Yash Pokharna

Assistant Director at EROS

Worked as an Assistant Director at MTV India for the show MTV Fame-istan, he finds his passion in film making especially travel diaries.

"Virtual Voyage shapes and aspires one to fiercely chase their dreams and goals by directing them towards the right path. The faculty here makes one realise your true potential and makes one work on enhancement of his/her skills."

Reflect the society we live in!

Media is a collective communication outlet used to store and deliver information or data. It is either associated with communication media or the specialized mass media communication businesses such as print media and the press, photography, advertising, cinema, broadcasting (radio and television), publishing and point of sale.

Entertainment is a form of activity that holds the attention and interest of an audience or gives pleasure and delight. It can be an idea or a task but is more likely to be one of the activities or events that have developed over thousands of years specifically for the purpose of keeping an audience's attention intact.

This program is designed to prepare students to function in a wide range of positions requiring the skills of persuasive communication. Students will be introduced to advertising, public relations, management, marketing and sales in the entertainment industry.

Digitization is changing the face of the media and entertainment industry all over the world. The smart phones, tablets, computers and wireless broadband have made information and entertainment available on the go. We are in a networked world where the geographical boundaries are giving way to globalization. In India, we are well poised to ride this information wave as we are blessed with a young population who are the avid customers of the media and entertainment industry. The media and entertainment as a creative process is well understood.

Krishna Singh Gohil

State Project Coordinator

Madhya Pradesh Voluntary Health Association

Nutrition Project-Clinton Health Access Initiative

Passionate about creating a positive impact on environment and local communities, he strives hard to make it possible.

"Virtual Voyage is one such place that can encounter your hidden talents."

Being good is good business

For an organization to be sustainable, it must be financially secure, eliminate its negative environmental impacts and act in conformity with societal expectations. CSR - Corporate Social Responsibility requires approaches that fit the respective needs and capacities of businesses and in meeting social and environmental standards without compromising on their competitiveness.

A properly implemented CSR concept can bring along a variety of competitive advantages, such as enhanced access to capital and markets, increased sales and profits, operational cost savings, improved productivity and quality, efficient human resource base, improved brand image and reputation, enhanced customer loyalty, better decision making and risk management processes. You can only become a social value innovator if you have gained the trust of your customers and society. One does that by executing the corporate philosophy through your business activities while listening to the voices of society through a dialogue with your stakeholders.

CSR is a win-win strategy that benefits the company, as well as society.

If you work on the strategy side of things, you could be conducting research into environmental issues and analyzing your company's current practices to combat them.

Additionally, you could play an integral role in deciding which charities to support and which community development schemes and volunteering programs your company's employees could get involved with.

Strategy is one thing but the initiatives that are devised by the CSR team also need to be implemented and coordinated effectively. If you focus your efforts on this side of proceedings, you might be arranging environmental audits of your existing suppliers; you could be going out into the community and actively setting up volunteering programs; or you may be commissioning environmental consultants to carry out assessments of your company's site.

Moreover, part of your job would involve liaising with potential suppliers, assessing their suitability and selecting the ones which fit in with your organization's values and ethical standards. For instance, you might only be dealing with Fair Trade Companies.

If you choose to get involved with the publicity side of CSR, you will be responsible for making sure the whole

world knows about your company's efforts. You would be using your excellent PR and marketing skills to make sure that all initiatives are widely-publicized and covered in the press. You will also be integral to decide which community events to sponsor and which charities your

organization should be working in partnership with.

Your career in CSR will entirely depend on your specific employer. For instance, in some major companies you might solely be working on publicity. However, in other organizations, you might be getting involved with strategy, implementation and publicity.

There is no standard entry-route into this line of work. However, majority of the organizations will require you to have a decent degree, commercial awareness and a strong passion for the environment, community work and sustainability.

CSR & NGO Management

CAREER PROSPECTS

- Strategy
- Management
- Publicity

COURSES	Duration	Eligibility
BBA in CSR & NGO Management	3 Years	10+2 (Any Subject/ Discipline)
MBA in CSR & NGO Management	2 Years	Graduation (Any Subject/ Discipline)
Ph.D. in Management (In Any specific remarkable subject related to CSR & NGO Management)	3 Years	Master's Degree

Dinesh Azad

**Store Manager at PEOPLE
Aditya Birla Group**

A team player who understands the need of customers and is efficient at solving problems.

"Virtual Voyage's location is great and there is always something amazing to do. During my time, I acquired the necessary skills and knowledge required for retail management."

Lets help to shop!

The rising boom in the retail industry has led many academic institutions in India to offer retail management course. Retail management is a professional program which prepares graduates to enter in the field of retailing. There is a huge demand for retail management professionals for processing of all merchandise shipments, achieving store sales and profitability, communication with the clients to gain their satisfaction and administration of stores. Retail is all about distribution of the product from the manufacturer to the consumers through short and convenient channels.

A retail management course from reputed career institutes may fetch a dream job. With the spurt of shopping malls and departmental stores, huge employment opportunities are opening up in India and abroad.

Retail management courses open up job prospects in the books and publishing industry, music stores, multiplexes, shopping malls, garment industry and even in the processed foods industry.

SALIENT FEATURES:

- The retail management program prepare students to thrive in the industry through introduction of industry-related projects throughout the course of study.
- The program offers training in the area of retail and it also includes elements of retail management skills.
- The learning experience is further enhanced through training in retail departments as well as contextual studies.

CAREER PROSPECTS

- Sales Associate
- Sales Manager
- Department Manager
- Store Manager
- Retail Manager
- Retail Buyer and Merchandiser
- Visual Merchandiser

Live the tech life

Computer Hardware is the combination of physical components or parts that makes the computer system. Professionals in the hardware and networking domain commonly deal with various hardware components such as chips, computer systems, motherboard, processor, RAM, circuit boards, modems, external hard disks, printers and keyboards. Aspirants who wish to be successful in the field should be inclined towards technical and analytical field. Hardware professionals are required to look after software installations as well as to ensure that computers work faster and efficiently. A hardware professional coupled with networking skills always adds value to a company and is thus always preferred. Networking is the field of computer science that allows computers to exchange data or information. Data can be exchanged either using cable media or wireless media. Internet is the largest example of computer networking. Networking hardware may also be known as network equipment or computer networking

SALIENT FEATURES:

- The goal of the hardware courses is to offer practical knowledge about the hardware and networking domain and add an extra edge by training students to cope with real life situations.
- A wide array of opportunities are available for the hardware and networking professionals in India.

devices. The professionals engaged in R & D of computer hardware and networks are known as hardware and networking engineers.

Besides looking after computer maintenance, they are also liable for supervising and designing the hardware installation and manufacturing process. The increasing use of computer, laptops and internet have expanded the scope of hardware and networking sector widely.

"Words won't match up to what I have gained from Virtual Voyage, the experience has been unforgettable and ineffable."

Know a creative way of communication

Communication design is a mixed discipline between design and information development which is concerned with how media intervention such as printed, crafted, electronic media or presentations communicates with people.

A communication design approach is not only concerned with developing the message aside from the aesthetics in media but also with creating new media channels to ensure the message reaches the target audience. Some designers use graphic design and communication design interchangeably due to overlapping skills.

It generally includes the following: Communication, Broadcasting, Bio Communication, Computer-mediated communication, Conversation, History of Communication, Information Intercultural / Interpersonal / Intrapersonal Communication, Journalism, Mass Media, Media Ecology, Meta-Communication, Models of Communication, New Media, Nonverbal Communication, Propaganda, Reading,

Speech, Symbol, Telecommunication, Text and Conversation Theory, Writing, Advertising, Brand management, Content Strategy, Copywriting, Creative Direction, Graphic Designing, Industrial design, Information Architecture, Information Graphics, Instructional Design, Marketing Communications, Performing Arts, Presentation, Technical Writing, Visual Arts, Architecture, Editing, Typography, Illustration, Web Design, Animation, Advertising, Ambient Media, Visual Identity Design and more.

Adopt a
Child

You can make a child a winner.

Just needed, a little support.

A journey to one's desired career is a road of immense hard work. It's no easy feat. Moreover, difficulties only multiply when one doesn't have enough resources. Even after mapping a long way right from schooling (which still stands to be one of the major problems of developing India), the bridge, only seems to be broken.

There's a dreamer who wish to become a designer, yet have no ruler. That one who has beautiful stories to tell and fantasies to make you wonderstruck has no animation

tools. It's this realization that drove Virtual Voyage to launch 'Adopt A Child'. As the name suggests, we seek corporate and social entities to 'adopt a child' as in fund half of talented and deserving students' tuition to help them with their education. By the term 'Adopt A Child', we want you to help every such child who deserves success but fails in achieving it due to his/her fragile financial condition. Let's help as many as we can. After all, alone we can do little but together we can do so much!

The Go Through Of Adopt A Child

- Corporate, social entities or individuals can join and fund 50% of the student's tuition.
- Virtual Voyage funds the other 50% of the student's tuition.

Let's make their dreams come true and fill in the gap of their broken bridge!

Contact : Vasudha Vaidya Email :- cmd@vvv.edu.in Contact: 93023 24000

Admission Procedure

The admission process at Virtual Voyage comprises of the following steps:

STEP 1:- Come And Meet Us

Admission seekers are requested to explore our web presence (specifically Website and Facebook Page) and for further queries and assistance, they must come and meet our course coordinators at our city office or at campus premises. They can also call/ SMS/ whatsapp us at 9300920000 for scheduling a prior appointment.

STEP 2:- Fill The Enquiry Form

During the candidate's visit to the city office/ campus premises, they have to fill the enquiry form which gives us an overview and opportunity to determine the true potential of the prospective candidate. While undergoing this process, candidates can even request for a counseling session with the higher authorities and can possibly get guidance on any specific queries, in person.

This includes all personal and educational details; the interest area, course that student is applying for, educational background, eligibility for scholarships, place where candidate is hailing from and much more. The information provided in the form further supports us in administering the right career guidance and what the applicant hopes to seek. This also allows the admission committee to evaluate sincerity of the candidate.

STEP 3:- Ask for Experts' Guidance

As mentioned earlier, the candidate can request a free counseling session by the team of experts; Counselors, Career Specialists, Psychometric Analysis Experts etc. Our career advisors provide complete and detailed information about all the disciplines & consider the student's wishes/choices on various appropriate career prospects.

With proper career counseling by experts on request, student can find the right career option. It can help students clear all the doubts by giving them a clear cut view of what they can expect from various courses. Some students might have preconceived beliefs about certain fields; counseling session helps students and parents to overcome these by bridging the gap between facts & myths associated with creative fields; enabling them to take the decision with full confidence, clarity and faith.

STEP 4:- Campus Visit

The importance of campus visit cannot be undermined rather the visit is crucial and important in choosing the right college.

There are number of institutes which provide such an education that submerges merely in 4-6-8-10 roomed campus, still they call themselves a college. Visit our campus and understand the difference between any tiny institute/ academy/ class and a grand/ huge lavish education hub like Virtual Voyage.

Visiting a campus gives an opportunity to get firsthand view and answers to important questions. Which you even don't ask or want to ask. It helps to get true feel of the environment and students studying along with a chance to evaluate ambience, facilities, social life, culture and academics of the College.

STEP 5:- Personal Interview

This allows the Admission Committee to evaluate how sincere and diligent you are towards your career.

This particular round clarifies every bit of confusion between the applicant and our admission cell. It is basically held to examine candidate's efficiency and capabilities which can further help him to cope-up with the guidelines of Virtual Voyage. Further, through this interview the candidates are expected to showcase their aspirations, motivations and achievements till date in order to obtain a transparent picture of them. This one on one discussion helps the interviewee to determine applicant's competency and aptness for the course of his choice.

It provides unique information for assessment generally not apparent on the written enquiry form. Students in turn get an opportunity to discuss their personal goals, academic interests, readiness for college, and reasons for their selection.

STEP 6:- Admission Process Formalities

The wrap-up of all formalities involves filling of the admission form and submitting all the listed documents along with the fee in admission cell.

STEP 7:- Congratulate yourself for joining Virtual

We welcome you on board.

An ideology passed down by a visionary

**Torchbearer – Father Of Mr. Abhay Jain
Shri Rajendra Kumarji Jain**

“The Fruits of success grow on the tree of hard work. Life is an endless journey and at every phase we learn something new.” Such are the thoughts of this great man, father of Mr. Abhay Jain (founder of Virtual Voyage College). A successful farmer who is passionate about education and believes that there is no age of learning has set an example by completing his 12th with his son (Mr. Abhay Jain).

He further pursued BA, LLB, LLM, and M.phil and still aspires to do PHD at the age of 56! He says, "There should not be any excuse for education. Leaders think about the opportunities of tomorrow rather than focusing on the problems of the past. To think like a leader, you must practice 'idealization' in each area of your life. Begin by imagining that you have no limitations at all on what you can be, do, or have."

On behalf of the organization, he further states; “We value every individual in our care and it is our aim to provide the best possible environment in which children can succeed. We are fortunate to have a talented, highly committed teaching and support staff here to ensure the learning environment for our students is the best.” We seek to instill in our students a passion for learning that will bring the knowledge and understanding they will need to make a positive contribution to the communities in which they live and work. We encourage high academic standards and have high expectations of personal discipline and motivation from our students. These are the keys to success in life after school.

Virtual Voyage College of Art, Design, Media and Management is a vibrant learning community that encourages a three-way partnership between students, parents and the college. The strength of that partnership is reflected in the success of our students. We look forward to a great culmination of your talent with our teaching and support. Wish you all the best!
